

JEANETTE B. OBUSA

Full stack web development is the area that fascinate me since I started to learn programming. I had a little bit of experience in the back end using HTML when I was in high school, but I have intermediate coding skills in c++ and currently learning python. Despite my limited programming skills, I am trainable individual that is curios about digital technology trends.

EDUCATION

- Monkayo National High School
Completed in 2014
- University of Mindanao Tagum College
BS in Electronics Engineering
Expected completion
December 2022
